### Location

Athens, Georgia

## SUMMARY

---

I am a task-driven problem solver who always strives to do my best efficiently and pays attention to the details. Throughout my college career, I have focused on learning about how various computer-based systems work but also have become adept at coding in a plethora of computing languages.

## SKILLS

---

- Database Management
- C/C++
- Quick Learner
- Java/Javascript
- HTML/CSS
- Back-end functional design

## EXPERIENCE

---

### Engineering Assistant

*The Classic Center, Athens GA • October 2024 - Present*

*I conduct general maintenance on the building, especially regarding power and network systems. I also assisted in opening the brand-new Akins Ford Arena by setting up network switches and configuring their ports, security workstations, and elevator communications. Furthermore, I managed most purchase requests and expense reports that ran through my department.*

### Security Supervisor

*The Classic Center, Athens GA • February 2019 - October 2024*

As a supervisor, I was responsible for managing and training my fellow guards and delegating them to positions around the building. I also had to take command of crowds of hundreds of people during high-stress/emergency situations.

### I.T. Intern

*The Classic Center, Athens GA • January 2024 - May 2024*

I assisted in solving the day-to-day technology and network issues throughout the building as well as organizing existing databases. I also stabilized and reorganized the camera system greatly increasing the overall security of the building. I learned a lot here, such as Windows domain controllers, network systems, and overall common computer issues, despite my short time in this position.

## EDUCATION

---

### BS- Computer Science

*University of Georgia, Athens, GA • August 2021 - December 2024 (Anticipated)*

### Highschool Diploma

*Clarke Central High School, Athens, GA • August 2014 - May 2018*
